Save Money by Watering Smart
Landscapes are healthier when watered right.

SAFE ZONE:

All critical elements (text, images, graphic elements, logos, etc.) must be kept inside the blue box.

Anything left outside the blue box may be cut off during trimming.

TRIMMING ZONE:

Please allow 0.10 inches cutting tolerance around your card. We recommend no borders due to shifting in the cutting process, borders may appear uneven.

BLEED ZONE 0.10 inches:

Make sure to extend the background images or colors all the way to the edge of the black outline.

Controller Link is climate controlled irrigation.

Landscapes are often over watered because conventional sprinkler timers do not react to changing weather conditions

IMPORTANT
